

Are you pleased
with your retirement plan?

A good retirement plan should provide:

- Quality investments across a broad range of objectives
- Recordkeeping and administration services that meet your needs
- Reasonable plan costs
- Effective employee education and communications

How does *your* plan measure up?

Investors should carefully consider the objectives, risks, charges and expenses of the American Funds and, if applicable, any other investments in their plan. This and other important information is contained in the funds' prospectuses, which are available from their plan's financial representative and on the Web. It's important that investors read the prospectuses carefully before investing. Investments are not FDIC-insured, nor are they deposits of or guaranteed by a bank or any other entity, so investors may lose money.
